

THE THIRD TIME

Rev. Dr. T. DeWitt Talmage's
Tabernacle Burned.

Singular Coincidence That Every Fire
Was on Sunday.

The Congregation Had Just Left the Morning Service, Except a Few—The Hotel Regent Also Burned—Aggregate Loss Over One Million Dollars.

NEW YORK, May 14.—Fire seems to be the Nemesis of Rev. Dr. Talmage and the members of his congregation. Their beautiful new tabernacle at the corner of Clinton and Greene avenues, Brooklyn, was destroyed by fire Sunday noon. The flames broke out just after those who had attended morning service had left the building.

Not only was the church destroyed, but the Hotel Regent, and a number of buildings were also greatly damaged. Had the fire broken out one hour earlier, while the building was filled with worshippers, it is almost certain that a dreadful panic and loss of life would have resulted.

This is the third time that the Talmage tabernacle has burned. It is a singular coincidence that every fire was on Sunday. Everything in the tabernacle Sunday was destroyed with the building. Perhaps the loss which will grieve Dr. Talmage most is that of the memorial stones which he brought from the east, and which were set in the wall at the right of the organ, encased in relief work. They were four in number. The top block was from Mt. Calvary and bore the word "Sacrifice." The stone below from Mt. Sinai, bearing on it "They Law." The bottom stone is from Mt. Zion, and bears the inscription, "Gospel." The front stone was unmarked. "A more unique collection never was gathered from one place," Dr. Talmage says of them.

The fire, it appears, originated back of the organ. Dr. Talmage was in the church shaking hands with Mr. Leonard Moody, H. Adams, James H. Ferguson and their wives, when a small boy rushed into the church through one of the open doors and informed the sexton, Jas. Day, that he had seen smoke coming out of the windows on the Waverly avenue side of the church. The flames spread with lightning rapidity and the sparks flew in all directions. The greatest excitement prevailed. The interior of the church was a seething, roaring mass of flames inside of thirty minutes after the fire was discovered, and by 1 o'clock the roof and the handsome steeple had fallen in.

There were two ladies in the Hotel Regent who had to be carried out. On the fifth floor Mrs. Loomis of Savannah, Ga., was lying ill with her young baby, only a few days old. She was carried safely from the burning hotel, and, with her child, was removed in an ambulance to the Homeopathic hospital. Miss Kean, the assistant housekeeper of the hotel, was also carried from the building. She had just passed through a severe illness, but was convalescent.

The loss is estimated at a little over \$1,000,000. The loss on the Hotel Regent, including the building, paintings and the guests' household goods will amount to about \$500,000. The loss on the tabernacle is about \$400,000, and the adjoining buildings are reported to be damaged to the extent of \$50,000. It is said that the hotel was insured for \$500,000.

Four firemen were overcome by heat during the progress of the flames, and had to be removed from the scene. All subsequently recovered. It is supposed the fire was caused by a spark from one of the electric light wires behind the organ.

Startlingly Realistic.

PHILADELPHIA, May 14.—In the midst of his sermon, on the "Uncertainty of Life," before a large congregation in the Immanuel M. E. Church, Sunday morning, Rev. John W. Langley was stricken with paralysis and fell to the floor of the pulpit. Excitement prevailed, as it was thought he was dead, but he was quite conscious although his entire right side was paralyzed. Mr. Langley has had prominent charges in all parts of the country since his ordination forty years ago. He is 60 years old.

Alabama Desperado Gets His Quiet.

BIRMINGHAM, Ala., May 14.—Wyatt Tate, who for some time has been a terror to the citizens of Monroe county, has at last been surrounded and killed. About two months ago an attempt was made to arrest him, but he killed the leader and escaped. Two other attempts to capture him by other posses ended in the same way, the leaders in each case being killed by Tate. Saturday afternoon the desperado was located and surrounded. He was ordered to throw up his arms, but refused and was literally filled with lead. Rewards amounting to \$1,000 had been offered for his head or alive.

Cleveland After Ship.

NORFOLK, Va., May 14.—President Cleveland, Secretary Gresham, Secretary Carle and Capt. R. D. Evans arrived here on the lightship tender at 11 o'clock Sunday morning. The party were transferred to the Violet, and proceeded to Carrington sound, where the presidential party will spend three days before returning to Washington.

NOT WANTED.

The Marylanders Protest Against Coxe's Army Camping in Their Vicinity.

WASHINGTON, May 14.—The people in the little Maryland suburbs of Washington adjoining the proposed new Camp of the Coxeites, who are about to leave the district, have appealed to the governor of Maryland to prevent what they term an outrage on their property rights. In the little town of Hyattsville, celebrated for its adoption of the Henry George single tax system, subsequently overthrown by the courts, the citizens rang the fire bells Friday night when the news reached there, to call an indignation meeting to protest against having the Coxeite camp in their neighborhood.

Two hundred strong, they marched in a body to the residence in Bladensburg of Mr. J. H. Rodgers, who had tendered the Coxeites the new camping ground. They received scant satisfaction from either the elder Rodgers or his son, J. Harry Rodgers.

Both of them announced themselves as Coxeite sympathizers, without approving his methods. Then the citizens left in an indignant frame of mind, and later Col. Wright Rives, a retired officer of the United States army, who lives near by, telegraphed to Gov. Brown, of Maryland, as follows: "I have written you, Coxeite will arrive at Bladensburg to-morrow. Don't allow his horde to put our property and lives in peril."

The governor's reply is anxiously looked for by the citizens.

ANTI-OPTION.

Speculative Men Combining to Defeat Hatch's Bill.

WASHINGTON, May 14.—In view of the combinations which are being formed among congressmen from the large cities, it is evident that Representative Hatch will not have as easy a time in passing his anti-option bill as some of its supporters anticipate. Among the latest to range himself in opposition to the measure is Uncle Loren Fletcher, of Minneapolis, the home of Senator Washburn, of Minnesota. Information from a trustworthy source is to the effect that Mr. Washburn does not propose to take such an active part in framing an anti-option measure as he did in the last congress. According to the programme outlined by the opponents of the Hatch proposition, every obstacle possible will be thrown in its way, with a view to getting it into the senate too late for any action by that body. It was suggested to Mr. Burrows, of Michigan, that an effort might be made to induce Speaker Crisp to give anti-options preference over some other matters which might come up in the house. His reply was that he could be relied upon to fight any such proposition to the bitter end.

DEFIED THE OFFICERS.

They Filled Him With Lead, But He Made His Escape.

BOWLING GREEN, Ky., May 14.—The Scottville stage brought the news of a probably fatal shooting scrape near that place. The civil authorities had a warrant for the arrest of Albert Hicks, charged with selling whisky in violation of the law, and Hicks had sent the officers word that the whole town of Scottville would not take him. Friday the Scottville marshal, Theodore Hall, and Deputy Sheriff Cal Wygall came upon Hicks not far from Scottville, and called upon him to halt and surrender. Hicks was armed with a double-barreled shotgun, and raised it to shoot, but Hall, who also had a shotgun, and pulled his trigger first and emptied a load of No. 3 shot into Hicks. The latter took to his heels, and, notwithstanding the fact that Hall fired the other barrel at him, and Wygall took several cracks at him with his pistol, he made his escape. Hicks is thought to be badly wounded, and the officers are determined to secure him.

ARMOR ON EDGE.

A Chicago Man Claims Wonderful Things for His Plans.

CHICAGO, May 14.—Paul DeF. D'Humy, of Chicago, is the inventor of a novel form of armor plate, which is soon to be given an exhaustive trial by the government. If the test is a success it means the entire revolutionizing of the present system of making armor plate.

Mr. D'Humy's plan is to present the edge of an armor plate instead of its surface to the projectile of the enemy. Instead of being in one piece the plate will be composed of a number of two-inch steel plates set on edge and bolted together. The manufacture will be within the scope of even the smallest plant, so that no one firm with a powerful plant need control the output and the government will be able to make its own plates if desired.

DRUGGED AND ROBBED.

CHARLESTON, W. Va., May 14.—M. J. Hopkins, a Boone lumber man, was robbed of \$500 by Sam Johnson, colored. The Negro drugged his victim, went through him and fled. Hopkins was arrested at Huntington Saturday.

A Physician Solved.

WEST ALEXANDRIA, O., May 14.—Dr. Crose, physician and justice of the peace at Johnsville, Montgomery county, committed suicide on account of being short of funds collected in an official capacity.

DROPPED IN A RUNAWAY.

YELLOW SPRINGS, O., May 14.—Two young men from Osborn and Fairfield, named Lipp and Swadner, were injured in a frightful runaway. Swadner was dragged and crushed almost to death.

RUN OVER AND KILLED.

HENDERSON, Ky., May 14.—Mrs. Annie Williams, a fortune teller, about 70 years of age, was run over and killed at Corydon by Ohio Valley passenger train No. 2.

RUSH FOR GOLD.

SYDNEY, N. S. W., May 14.—There is a wild rush of settlers for the new gold fields in West Australia. Hundreds are suffering for food and water.

NEW PROCESS.

A German Makes Steel By the Aid of Electricity.

Fifty Per Cent. Saved in the Making of Steel and Other Metals.

It is Known as the Tausig Process and Provides for Smelting and Casting Metals by Electric Heat Under the Influence of Rarified Air.

WASHINGTON, May 14.—A reduction of the cost of casting steel, iron and other metals by fifty per cent., a great saving in time, the production of castings free from oxidation and blow-holes, and, most important of all, the production of pig iron in mountainous and remote districts having water power and ore, but no coal; all these things may result from the application of electricity, according to a new process described in a report to the department of state by U. S. Councilman Frank Mason, at Frankfurt, Germany.

The process is known as the Tausig process and provides for smelting and casting metals by electric heat, under the influence of rarified air. An airtight furnace lined with glazed fire-brick, has its hearth connected with molds into which the fused metal flows by gravitation. The fire-brick lining forms an efficient insulation, and the electric current is sent through the charge directly without the use of any fuel or the employment of carbon electrodes. Thereby the fused metal is nearly pure and free from carbon, and the continued exhaustion of the air and gases produced increases the fluidity of the molten material, prevents oxidation and blistering, and produces dense, smooth castings of the highest mechanical qualities.

HARD TIMES.

A Report Favorable to an Investigation by a Joint Committee of Congress.

WASHINGTON, May 14.—Chairman McComb, of the house committee on labor, has completed the report favorable to an investigation by a special joint committee of the senate and the house of the depressed condition of labor and of the Coxeite movement.

The report advocates immediate action and says:

"That congress should endeavor to alleviate this condition of affairs can not reasonably be questioned, and the cause of such financial and industrial depression as the committee may find will more thoroughly enlighten and aid congress as to the best course to pursue. It can not be denied that the influx of pauper labor against the skilled American workman, as well as the employment of women and children in factories and industries of all kinds, is among the many causes which have tended not only to lessen the value of man's labor, but to greatly diminish the field of industries in which he could find opportunity for a profitable use of his energy and skill."

Jew Baiting in Russia.

LONDON, May 14.—A m. a. Petersburgh dispatch to the Times says: "Very serious anti-Semitic disorders occurred in the southern part of Russia. In several cases a number of persons were killed. At Ekaterinoslav, on the last day of April, at a fair crowds of workmen in holiday attire attacked Hebrew owners of booths and stalls and the riot soon spread throughout the town. A barrel of petroleum was ignited in the middle of a street. Shops owned by Hebrews were broken into and pillaged, and Hebrews were horribly maltreated. Many Hebrews tried to escape in carts and droskies, but the vehicles were overturned and demolished. On the next day the Briansk Iron works were surrounded by troops to prevent the workmen from entering the town and renewing the riots. One hundred rioters were arrested."

Wigger Gusher Than Llewelling.

NEODESHA, Kas., May 14.—Another gusher has been struck in the Neodesha oil fields. A charge of sixty quarts of nitro-glycerine was lowered into the Theodore Johnson well 850 feet deep, followed directly by a fifteen pound go-devil, which exploded the nitro-glycerine charge, and the grand sight was on. For fully fifteen minutes the oil was thrown many feet above the top of the seventy-four foot derrick and continued to flow at intervals until a stream of oil fully eight inches deep was flowing through a ravine leading from the well. Work on the storage tanks has begun and is being pushed vigorously. Some of these have a capacity of 40,000 barrels.

Lapps for Alaska.

NEW YORK, May 14.—The Danish steamship Island brought a curious company of sixteen passengers to this city Saturday. They comprise six families of Lapps, all in native dress. The youngest member of the party is an infant, which is carried by the mother in a deer skin cradle which closely resembles an Egyptian mummy case. Ten black Esquimaux dogs started with the party, but one died on the 10th inst. These Lapps are en route to Fort Clarence, Alaska, to be employed at the reindeer stations.

Mines Guarded.

PETERSBURG, Ind., May 14.—The strike at the Little coal mines is becoming alarming. About twenty men left here for the mines to assist in guarding them. They will be furnished with Winchester rifles. It is expected that at least fifteen hundred miners from a distance will come to the mines. Trouble may not occur, but it is not at all improbable.

Judge Harlan Only Fainted.

LOUISVILLE, Ky., May 14.—The report that Judge Harlan had been stricken with apoplexy Saturday proves to be untrue. He was overcome by the heat and fainted. He is doing nicely and will be all right again in a short time.

THE IRON SCALE.

It Will Be Almost Identical With the One Now in Force.

PITTSBURGH, Pa., May 14.—The wage committee of the Amalgamated association completed its work shortly before midnight on Saturday, and, with the Pittsburgh delegates will leave Monday for the convention at Cleveland. The arrangement of the scale this year required much less time than formerly, and when presented to the convention will be found to be almost exactly like the one now in force. Whatever alterations are made in the work of the scale by the delegates, if any, will be very slight, and will not raise the basis of the schedule much above the very low price for puddling now in force. The number of delegates who will be in attendance will be 160, about sixty less than for the past two years. The convention will not last as long as usual, and is expected to be ended in ten days.

LABOR MASS MEETING.

Indorses Coxeite and Calls for a Labor Convention in Washington.

INDIANAPOLIS, Ind., May 14.—A monster meeting of organized labor and railway trainmen was held in the Empire theater Sunday afternoon, under the auspices of the Central Labor union. The speakers were Eugene V. Rebs, president of the American Railway union, and Geo. W. Howard, vice president. Both seemed flushed with the recent victory in the strike on the Northern Pacific conducted by the new organization. The new organization, it is said, would figure in politics, not on questions of wages, which the organization could only wisely deal with, but for shorter hours and such affairs. Resolutions were adopted indorsing the Coxeite movement, and calling for a labor convention at Washington.

DEATH IN CANDY.

The Extraordinary Carelessness Regarding Smallpox Discovered by Factory Inspectors in Chicago.

CHICAGO, May 14.—The state factory inspectors here have found a candy factory where girls are employed with traces of smallpox visible on their faces. Their investigations show that the so-called quarantine in many places is a hollow mockery. At 804 Eighteenth street, a tenement house, the inspectors found more unvaccinated than vaccinated persons among the ten families. Four children who live there and work in an adjacent candy factory have smallpox. One or two of them have nearly recovered. While the factory inspectors were in the house the milkman came in, left milk with each of the ten families, and then visited the next house. His cans were open all the time. There has been no attempt or pretense of quarantine there, the factory inspectors said. They shut up the candy shop so none of the goods could be removed. In the meantime the children are wrapping caramels.

Blinded by a Torpedo.

PARKERSBURG, W. Va., May 14.—Olin Tavenner, aged 10 years, while playing with a railroad torpedo, caused it to explode, striking him in the forehead. At first it was thought his eyes could be saved, but the sight of one will be entirely gone and the other will be greatly affected, producing nearly total blindness.

Coxeites Refuse Work.

HASTINGS, Neb., May 14.—Bennett's army of 70 men arrived Friday evening. Kilpatrick Brothers and Collins, who are building a railroad from Sheridan, Wyo., to Billings, Mont., offered free transportation and employment at \$1.40 per day to the men, and not one would accept. The army is bound for St. Louis.

Mrs. Cleveland Departs.

WASHINGTON, May 14.—The white house is at present without any of its distinguished occupants. Following the departure of the president, Mrs. Cleveland left at 7:10 Sunday evening with her two young daughters, for Buffalo, N. Y., where she will make a brief visit with her mother, Mrs. Folson.

Want the Crop Report Abolished.

ST. LOUIS, May 14.—The board of directors of the Merchants' exchange has been requested to take action, not only to investigate the alleged leak in the government crop report, but to take such steps as to have the report abolished entirely.

Why She Committed Suicide.

PROBIA, Ill., May 14.—A special from Anna, Ill., says Daisy Vaughan, a ten-year-old girl, died Sunday morning at her home near there from a dose of poison which she took because her mother would not let her drop corn for a neighboring farmer.

Serious Result of a Runaway.

SHELBYVILLE, Ind., May 14.—Miss Jessie Bennet, of this city, and her sister, Mrs. May Hutchings, wife of Dr. Hutchings, of Cincinnati, were out riding Sunday evening, and while racing down one of the streets the horse took fright and they were thrown violently to the pavement. Jennette was seriously hurt.

Garsmen Challenged.

WHEELING, W. Va., May 14.—Pearl Prickett, of Bellaire, O., Sunday issued a challenge to row any man in the world five miles for any amount from \$500 to \$5,000. Prickett has ample backing.

Senator Wolcott Sails for Europe.

NEW YORK, May 14.—United States Senator Wolcott, of Colorado, has sailed from New York for Europe. He goes away on account of ill health, and will probably be absent for several months.

The Ericsson Launched.

DURHAM, Ia., May 14.—The torpedo boat Ericsson, the first United States war vessel ever built on inland waters, was launched Sunday afternoon in the presence of several thousand people. As the vessel struck the water a national salute was fired.

The Leader Deserted.

LAWRENCEVILLE, Ill., May 14.—Company F, of Morrison's division of the Coxeite army, disbanded here Sunday. Harris, their leader, having deserted them, taking all their funds with him.

AN EXPLOSION.

A Tank of Benzine Lets Go During a Fire.

Shower of Blazing Fluid Rains on Fire-men and Spectators.

In a Mad Scramble to Get Away a Score or More of Men and Women Sustained Painful Bruises—A Number of Firemen Severely Burned.

BRADFORD, Pa., May 14.—Fire was started in the barrel house at Emery's oil refinery, in this city, by a spontaneous combustion, Sunday afternoon. The refinery was destroyed. The loading rack and five oil tank cars standing on a sidetrack of the Buffalo, Rochester and Pittsburgh road were also burned.

The fire was fierce and attracted a large throng of sight-seers. The Bradford firemen fought desperately to hold the flames in check, but their streams only added energy to the flames.

While the firemen were busy, and hundreds of spectators watching them, there was a violent explosion. A tank containing 400 gallons of benzine blew up. The dome of the iron tank was shot up into space 300 feet, and came down with a crash an eighth of a mile away. The broken fragments of the tank took an upward course, and the burning benzine was hurled up in the air.

For a moment following the explosion everybody stood still, bewildered and stunned by the shock. When great volumes of fire were seen coming down from what seemed a terrible and certain death.

In the mad scramble to get away a score or more of men and women sustained painful bruises, and a few were trampled upon and piled up in heaps in their eagerness to escape. About thirty-five firemen had their trousers, necks and hands burned so that the skin peeled off. Their mustaches and hair were burned off in many cases. Many of the spectators were within 100 feet of the tank when it blew up, but the firemen were within less than half that distance. None of the spectators were seriously injured by the fire.

CHIEF JUSTICE RESIGNS.

Raney, of Florida, Gives Up His Place for Reasons Not Explained.

JACKSONVILLE, Fla., May 14.—Much surprise was created here Sunday by the announcement of the resignation of Chief Justice George P. Raney, of the supreme court, to take place at once. His resignation just now is likely to cause curious political combinations. Judge Raney affiliated with the anti-Call faction, and this gives Gov. Mitchell a good chance to appoint one of their own men to the vacancy, which will give him prominence in the convention called to nominate a chief justice this fall. This office is the only state office to be filled at this election. The Call men, will, of course, fight, and the political quarrel will be very bitter this summer.

That Bullet-Proof Coat.

BERLIN, May 14.—Though the tests of the bullet-proof coat invented by Herr Dowe, the Mannheim tailor, have been satisfactory as far as they have been pursued, the authorities of the war office entertain doubts of its practical utility in the army. It is proposed to submit the coat to open field trials with a view of ascertaining its availability as a protection to men in fortresses and ship batteries.

Found Dead in a Bath Tub.

INDIANAPOLIS, Ind., May 14.—Sergeant George J. Walsh, U. S. A., one of the officers of the recruiting station at this point, was found dead Sunday morning in the bathtub at headquarters. Death was caused by a clot on the brain, due perhaps to the cold water bath he had just taken. He was serving his fourth enlistment, and belonged to Co. A, Third regiment. His relatives live in Buffalo, N. Y.

Hanged From a Bridge.

STRONG CITY, Kan., May 14.—George Rose, the printer, who shot and killed Karl Kuhn, assistant postmaster at Cottonwood Falls, 20 miles west of Emporia, Friday, was taken from the jail at that place Saturday night by a masked mob and hanged. It is understood that the masked men comprised the most respectable citizens of the vicinity.

To a Finish.

SPRINGFIELD, O., May 14.—Saturday forenoon articles of agreement between Abner Cain, of Dayton, and Harry Gibbons, of this city, were signed for a contest to take place before a Dayton gymnastic club, which offers \$100 to the winner and \$25 to the loser on May 20.

Shot His Drunken Father.

WHEELING, W. Va., May 14.—Sunday morning George Blakemore, aged sixteen, shot his father, Frank Blakemore, twice through the heart. The father, a dissolute character, had been drunk all night and in the morning tried to force his wife to give him the son's wages to buy liquor, the son having supported the family for several months.

Aged Lady Killed.

MORGANFIELD, Ky., May 14.—Mrs. Sweeney, an aged lady of Corydon, was run over and instantly killed by the south-bound passenger train at 10 o'clock Saturday morning. The engineer did not see her until the train was within a few yards of her.

Suicided by Shooting.

WESTON, W. Va., May 14.—Amos Carpenter, a prominent and wealthy Webster county farmer, whose residence near Webster Springs was the rendezvous of city visitors to that resort, committed suicide by shooting himself through the breast with a revolver. No cause known.

CONDENSED NEWS

Gathered From All Parts of the Country by Telegraph.

Little Earl Kalksdosch was drowned while swimming at Columbus, O. Two hundred pounds of contraband opium has been seized at Chicago. Fire destroyed Watrous' Engine works at St. Paul, Minn. Loss \$140,000.

There is no truth in the report that the health of Queen Victoria is in a precarious condition.

The next national meeting of chiefs of police will be held at Washington May 14, 1895.

Newly made graves at Logansport are charged with dynamite to prevent robbery by ghouls.

Gas of thirty-pound pressure was struck in the well under the Superior street viaduct, Cleveland, O.

At Lovelock, Nev., fifty industrials were in possession of a freight train, Sunday. The sheriff was endeavoring to force the men them off.

The date of the investigation at the Ohio penitentiary has again been postponed. It was to have been resumed on Tuesday, but the date has been changed to the 24th.

The Illinois state board of railroad and ware house commissioners have cut all employees' salaries from twenty-five to forty per cent., and decided on a number of dismissals.

The Brooklyn tabernacle destroyed by fire Sunday was insured for \$130,000 in four companies, viz.: London and Liverpool, the Royal Insurance Co., the Phoenix of Hartford, and Phoenix of Brooklyn.

Kelly's fleet reached the iron bridge, several miles from Okaloosa, Ia., Sunday morning, and two hundred people went out and reviewed them. A thousand loaves of bread and a thousand pounds of beef were sent out by the citizens for the army's benefit.

Unknown persons Sunday drilled holes in the trunk lines of the United States pipe line, about eight miles from Athens, Pa., and set the escaping gas on fire. One of the lines carries refined and the other crude oil from the oil regions. The fire blazed fiercely all day. Gangs of men have been laboring to put it out, but thus far without success.

Within a year the work of rebuilding the burned Brooklyn tabernacle will begin. They will sell the present site and move to another, and buy it at a cost of not more than \$70,000. Dr. Talmage started on his trip around the world Monday. He goes to Philadelphia first, then to Atlanta and the southern states, to Honolulu, New Zealand and Australia.

Rudolph Zeigler, one of the most prominent citizens of Jefferson county, W. Va., has been convicted of murder. His victim was John Saunders. For several years Zeigler had been persecuted, his property destroyed and his family abused. Meeting Saunders, who was the leader of the gang, on the high road, Zeigler shot him with fatal results.

THE MARKETS.

CINCINNATI, May 14.
FLOUR—Winter patent, \$2.65@3.00; fancy \$2.35@2.50; family \$2.00@2.20; extra \$1.75@1.90; low grades, \$1.50@1.70; spring patent, \$3.00@3.50; fancy \$2.75@3.10; family, \$2.25@2.50; northwest-ern rye, \$2.00@2.25; city rye, \$2.00@2.25.

WHEAT—Choice wheat is offered at 54c, with \$2.40@2.50 bid.
CORN—Good demand, with sales of No. 2 yellow, track, at 42c.

OATS—Sales of No. 2 mixed, track, at 40c.
CATTLE—Market steady. Good shippers' \$3.75@4.25; good to choice butchers, \$4.00@4.25; fair to medium, \$3.40@3.90; common, \$2.25@3.25.

VEAL CALVES—Market quiet and steady. Fair to good light, \$4.25@5.00; common and large, \$3.50@4.00.

HOGS—Market active; 50@10c higher. Select shippers', none; select butchers, \$5.25@5.35; fair to good packers, \$5.15@5.25; fair to good light, \$4.90@5.15; common and rough, \$4.30@5.10.

SHEEP AND LAMBS—Sheep: Market steady. Extras, \$4.10@4.25; good to choice, \$3.25@3.50; common to fair, \$1.90@2.00. Lambs—Market easier. Extras, \$5.25@5.50; good to choice, \$4.50@5.00; common to fair, \$3.50@4.00.

WHEAT—No. 2 red spot, May, 58c@59c; June, 58c@59c; July, 58c@59c; August, 58c@59c; September, 58c@59c; October, 58c@59c; November, 58c@59c; December, 58c@59c; January, 58c@59c; February, 58c@59c; March, 58c@59c; April, 58c@59c; May,
